Re: Kudos for Successful Refueling Outage at Oyster Creek Nuclear Station

Dear Mr. Hill:

Please accept my gratitude on behalf of CB&I Stone & Webster for the performance of the IBEW members who worked the Oyster Creek Nuclear Station refueling outage this fall near Forked River, New Jersey. Oyster Creek Station is owned and operated by our client Exelon Generation.

For the second outage in a row at Oyster Creek, performance by IBEW members was outstanding, particularly in the area of Industrial Safety where we completed our pre-outage and outage work scopes without any OSHA Recordable or Lost-Time Injuries. This is a great accomplishment.

Secondly, our IBEW workforce completed its scope of work on time, often under trying conditions, with excellent quality.

Finally, we wish to convey specific gratitude to Local 400 Officers Guy Peterson, James Gervolino, and Robert Shimko, who worked tirelessly to secure highly qualified and professional electricians to our project. Local 400's commitment to its contractors is greatly appreciated.

Sincerely,

Dean Sack
Executive Director, Exelon Nuclear Fleet
